**Re: Provisional information concerning the catering service outside the Venue during the ISSF World Cup.**

Dear Friends,

The catering service in the hotels facilitated with restaurant could be modified or made indispensable according to the Government rules in force at the time of the Event.

As for Hotels **Bonotto, City, Europa** and **Vittorio** whose treatment is only B/B, and restaurants being forced to close at 6.00 pm, menus of their partner restaurant/s will be proposed day by day and the choice of food must be made in the morning for breakfast or even better during dinner the previous evening.

The meals will be consumed in the breakfast room of the said hotels or in the room.

We trust that given the situation not dependent on our will, guests will understand and adapt to the best that the Organizing Committee, Hotels and Restaurants will be able to do to meet everyone's needs.

Grateful for understanding and looking forward to welcoming you all, we extend our best regards,
